

ProClenz PCS

A complete and comprehensive Hand Hygiene System that dispenses foam, liquid, soaps & sanitizers while accommodating a universal base & cover for an easy field upgrade from manual to touchfree.

ProClenz Touchfree Dispenser

- ✎ Accommodates proprietary keyed cartridge.
- ✎ State of the art electronics with dual adjustable IR sensor for installation flexibility.
- ✎ Low Battery and status indicator light.
- ✎ Adjustable 2 speed motor to compensate for chemical viscosity.
- ✎ Adjustable dose switch.
- ✎ Locking cover (keyed or push button).
- ✎ Estimated 75,000 washes per set of 4-D batteries (9 to 12 month life expectancy depending on usage).
- ✎ Converts to manual in the field with insertion of manual actuating mechanism with no tools required.
- ✎ ADA compliant and UL approved medical device - 10.5 x 6.75 x 4.

ProClenz Manual Dispenser

- ✎ Accommodates proprietary keyed cartridge.
- ✎ Locking cover (keyed or push button).
- ✎ Converts to touch-free in the field with insertion of the snap in battery powered actuating mechanism with no tools required.
- ✎ ADA Compliant - 10.5" x 6.75" x 4".
- ✎ Pre-measured dose per activation. May vary with viscosity.

ProClenz Proprietary Components

- ✎ Proprietary nozzle holder accepts only corresponding keyed pumps.
- ✎ Major and minor proprietary keys for several proprietary combinations.
- ✎ Color coded assemblies for easy identification between Foam (Blue) and Lotion (Gray).

* Patent Pending
