

Simplicity Plus

- **Touch-free operation prevents transfer of pathogens**
- **Selectable pre-measured dispensing in 1ml, 3ml or 5ml doses**
- **Large 1500ml capacity**
- **Accepts single and double valve Bag n' Box containers**
- **Optional 1400ml refillable container**
- **Patented design tested for over 1 million hand washes**
- **Battery powered (up to 1-year of operation)**
- **Easy to install**
- **Splash resistant**

Simplicity Plus is a rugged and reliable touch-free dispenser offering a large 1500ml capacity. Touch-free activation prevents cross contamination making Simplicity Plus ideal for medical, dental, health care and food preparation facilities. Rugged design and reliable operation make the Simplicity Plus equally ideal for industrial environments such as food processing or meat packing.

Unlike other dispensers, Simplicity Plus is designed with a patented "pinch and push" pumping mechanism that gives it the ability to pump either single or double check valve Bag n' Box containers.

For further flexibility and cost savings, Simplicity Plus can be purchased with a 1400ml refillable bottle. This option provides long-term savings on soap/sanitizer purchases, reduces maintenance costs and allows the use of almost any soap/sanitizer purchased in bulk.

Simplicity Plus is powered by 4 D-cell batteries with life depending on usage and soap/sanitizer viscosity. A single set of alkaline batteries will typically allow for a 9 to 12 month period of operation.

Specifications

| | |
|--|--|
| Dimensions | Length: 10.75" Width: 6.75" Depth: 4.75" |
| Weight | 2.14 lbs (empty) |
| Enclosure Material | ABS Plastic |
| Color * | White or Black (custom colors available) |
| Activation Range | 3" to 6" (human hand) |
| Total Fluid Volume | Up to 1500ml |
| Dose Volume | Selectable (approximately 1ml, 3ml or 5ml) |
| Maximum Recommended Fluid Viscosity | 3000cP |
| Valve Type | Single or Double Check Valve Bag n' Box |
| Power | Four (4) 1.5V D-cell Batteries |
| Power (AT1138 Only) ** | 6VDC at 1A |
| Power Connector (AT1138 Only)** | 5.5mm x 2.5mm Barrel Connector |

* Simplicity Plus is currently available in a standard white or black enclosure. Custom colors and private labeling are available to qualified customers. Please contact UltraClenz (1-800- 931-8911) for more information.

** An external wall transformer powered model (AT1138) is available for applications where externally powered operation is desired. Batteries will serve as backup power if external power is lost.
